

KSM Solutions 24 Port SFP Managed Switch L2+

8 x 10/100/1000M RJ45 ports

24 x 10/100/1000M SFP fiber slot ports

4 x 1/10G SFP+ fiber slot ports

Each port can support unblocked packets - wire-speed forwarding

L2+ full network management function, supports IPV4/IPV6 management, static route full line rate forwarding, security protection mechanism, ACL/QoS policy and enhanced VLAN functions. Easy to operational management and configuration. Supports multiple network redundancy protocols STP/RSTP/MSTP (<50ms) and (ITU-T G.8032) ERPS (<20ms) improving link backup and network reliability.

Redundant or network link failure is quickly restored ensuring uninterrupted communication between applications. Easy to configure network application services such as port traffic control, VLAN division, and SNMP through the Web network management mode.

Suitable for industrial Ethernet application environments and can be used within industrial, transportation networks, rail transit, power industry, mining, petroleum, marine, heavy industry.
